

Welcome to Classic Craft Dental Laboratory

Classic Craft Dental Lab uses only the finest materials to craft crowns and appliances that invite light in and then gives it back in the way of a smiling patient. Each restoration is created with nature's design principles in mind. These design features include: emergence pro-

file, inter-proximal relationships, smile contour, proper occlusion, translucency and marginal integrity. All of this adds up to a shorter seat time and smiling patients.

By using a TQM (Total Quality Management) approach to our system based craft, we are

able to deliver predictable fit, finish, functionality and aesthetics. Classic Craft's predictability gives you the comfort in knowing that every appliance you place from us will be a smiling advertisement for your practice.

Product Information [Titan Crowns]

All Titan crowns are crafted using Ivoclar Classic Porcelains and Pentron Metals or Precious Metals for Captek. This combination of time tested materials allows us to make fixed restorations that fit like a glove and look as

real as adjacent teeth. Captek by Classic Craft gives your patient hygiene friendly aesthetics with each crown or bridge. We are a Captek certified laboratory.

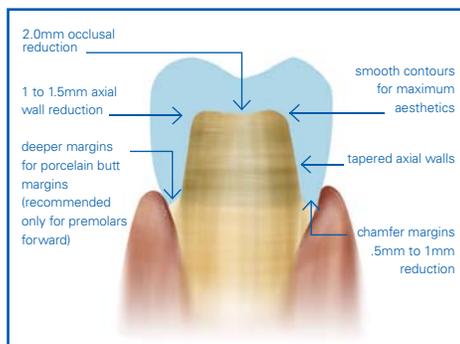

TITAN Captek
Porcelain to Captek

TITAN G
Porcelain to Gold

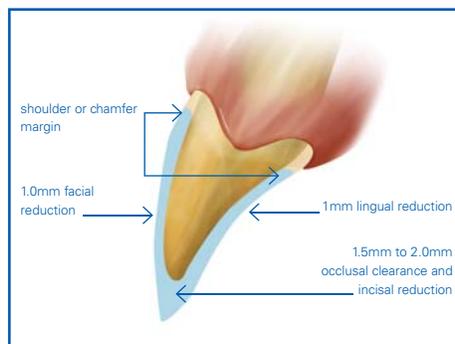

TITAN HN
Porcelain to High Noble

TITAN N
Porcelain to Noble

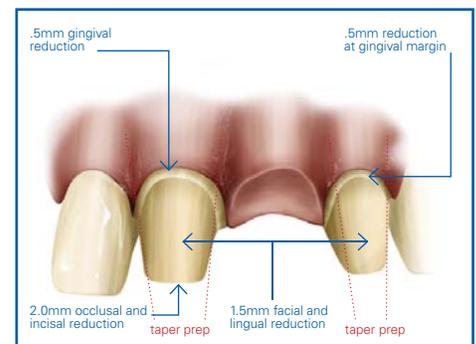

TITAN NP
Porcelain to Non-Precious

Product Information [IPS Empress® by Ivoclar]

Empress revolutionized ceramic crowns more than 15 years ago. Empress crowns are made of an extremely homogeneous leucite based ceramic, which scatters light like natural enamel and blends in well with the adja-

cent dentition. Empress has become the "Gold Standard" for aesthetic restorations and has gained a reputation for producing long-lasting natural results. *Empress is bonded for retention*

Product Information [IPS e.max by Ivoclar]

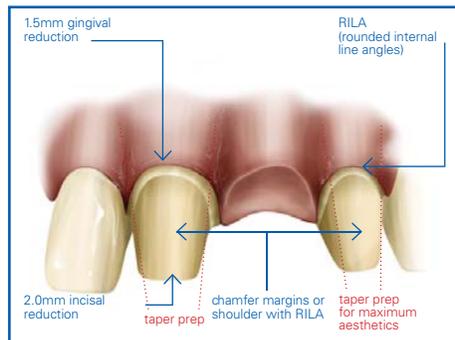

Designed with simplicity and versatility in mind, IPS e.max is the ultimate in both metal-free aesthetics and strength. By using a "cut-back"

technique, we are able to veneer the core with Ivoclar's Ceram porcelain for life like results.

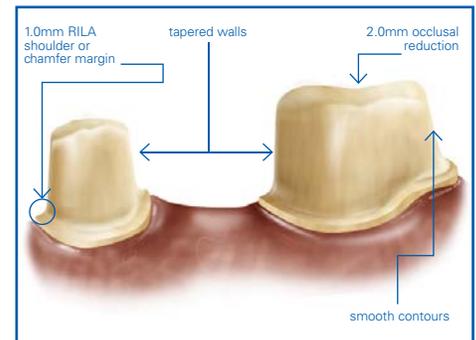

IPS e.max is conventionally cemented.

Product Information [SR Adoro (composite) by Ivoclar]

Adoro is a laboratory fabricated composite material that provides striking aesthetic veneers, inlays/onlays and full crowns. Adoro has a natural

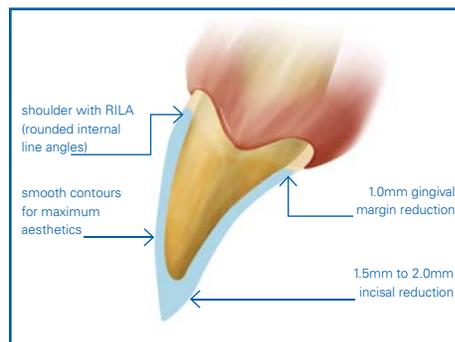

translucency that blends well with existing tooth structure. This creates a life like appearance.

Adoro is placed with a resin cement like Variolink.

Product Information [Classic Zirconia by Dentsply]

Classic Zirconia is an aesthetic alternative to higher cost all ceramic restorations without sacrificing strength and ease of placement. Classic Zirconia

can be used for single unit crowns and up to 4 unit bridges. Its shaded opaque core blocks dark stumps without compromising aesthetics. *Classic Zirconia is conventionally cemented.*
