

IMPLANTS

ABUTMENTS

Classic Craft Dental Lab works with all FDA-approved implant manufacturers including, but not limited to: Atlantis, Zimmer Biomet, Straumann, Nobel Biocare, and Vulcan. We are an Encode Empowered lab, which allows us to unlock Encode healing caps for abutment milling without using a third party.

- Custom abutment partners assume all warranties for OEM implants
- Options include: titanium, gold hue titanium, zirconia, hybrid zirconia, and one piece, screw-retained on a ti-base

FREE SCAN BODIES

Classic Craft Dental Lab has partnered with Atlantis to provide free scan bodies for a wide selection of implant manufacturers. Scan bodies can be used on all digital platforms. Atlantis scan bodies create a seamless transfer of unique implant placement information to us for an unmatched custom abutment and aesthetic crown result.

CUSTOM-MILLED BARS

Classic Craft Dental Lab offers milled titanium or custom-cast bars for over dentures. We have partnered with Atlantis to offer a unique variety of options for cases that are more complex in nature. Custom bars can be paired with a semi-fixed or fixed prosthesis as dictated by your treatment plan. Custom-milled locator and Hader bars are also available. Call the lab for more information.
